Ordering number 8595090553052

SPD type 1 - Lightning Current Arrester

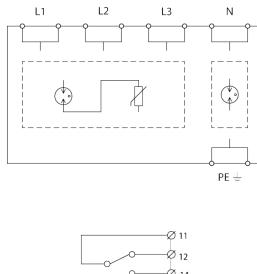

pluggable module, visual fault signalling, module locking, remote fault signalling combination of three-pole high performance lightning current arrester and encapsulated efficiency spark gap, connected in the 3+1 mode, leakage current-free, installation at the boundary of zones LPZ 0 and LPZ 1 or higher, mainly to main distribution boards, for protection against impact of direct or indirect lightning strikes in wide range of applications - houses, office and industrial buildings, coordination with SPD type 2 (SLP-275 V) even without surge separating inductors
